

The Art of the Corporate-Investor ESG Conversation

Draft Workshop Agenda

December 11 and 12, 2018 | New York, NY

There is a sea change underway in ESG. Investing with ESG factors in mind is no longer a 'niche' strategy. Organizations are mobilizing inside and outside the company to drive purpose-driven change deeper into their operations. And as the volume of investor interest grows, so too does the desire for information and new sources of data. In this workshop, we have invited a small number of ESG experts – select investors, senior sustainability and corporate responsibility strategists, and others – to take stock of where this frenzy of interest is taking ESG and explore how we can improve ESG related conversations both inside companies and between the companies and the market.

Tuesday, December 11

2:30 – 3:00 p.m. **Check in for Workshop**

PwC Headquarters, 300 Madison, 22nd Floor, New York, NY

Take the Lobby Escalator to Event Check-In Desk near Security, Photo ID Required

3:00 – 4:00 p.m. **Welcome & Introduction:** How are the conversations related to ESG changing? As we open this workshop, we will invite participants to introduce themselves and identify one ESG related conversation that they are having now - either within their company or outside - that wasn't possible a year ago.

4:00 – 5:30 p.m. **Linking Exceptional Leadership to Long-Term Value Creation**

Expertly managing ESG factors is essential for creating long-term corporate value. How do executives identify and manage these factors holistically, especially when they have to contend with incomplete and conflicting data and, in many cases, surface level support or even skepticism within the investor community and their own companies?

Witold Henisz and Rachelle Sampson have been working with other global scholars to shift the balance of academic research and pedagogy towards a long-term orientation, recognizing the value of managing ESG factors in this shift. In this session, they will provide insights into the progress and ongoing challenges of ESG conversations in research and teaching, inviting participants to contribute expertise to the effort to sway skeptics in the scholarly community and elsewhere.

Speakers: **Witold Henisz**, Professor of Management, Wharton School of Business, University of Pennsylvania & **Rachelle Sampson**, Associate Professor of Business and Public Policy, University of Maryland, and Senior Policy Scholar, Georgetown University, Center for Business and Public Policy

6:00 – 8:30 p.m. **Cocktails and Dinner – *Triomphe* at the Iroquois Hotel**

Featured Speaker: **Georg Kell**, Chairman of Arabesque (an ESG quant fund manager) & Founding Director of the UN Global Compact, on the performance of globally listed companies – what can be measured, and why does it matter? In conversation with Judith Samuelson, Executive Director of the Aspen Institute Business & Society Program.
