

Tired

by Cleo Wade

I was tired of worrying
so I gave myself peace back
5 I was tired of feeling intimidated by what I *should*
do
so I pulled up my sleeves
and got to work on what I *could* do
10 I was tired of not knowing so I found out - about myself, my family, my
ancestors, my government, and the struggles of others
I was tired of seeing evil everywhere
so I found the heavenly spots and showed my
neighbors where they
were
15 I was tired
of looking at the world as one big mess
so I decided to
start cleaning it up
and when people ask me if I am exhausted
20 I tell them no
because
more than anything
what I got the most tired of
was being tired
